Elize Y.X. NG

EDUCATION

University of Tasmania, Australia — **Oct 2020 – May 2025**
- PhD in Biological Sciences, thesis submitted in Nov 2024

National University of Singapore, Singapore — **Aug 2012 – Jun 2016**
- B.Sc. in Life Sciences with Honours (Distinction), with minor in Aquatic Ecology

ACADEMIC APPOINTMENTS

Postdoctoral Research Fellow — **Nov 2024 – Present**
The University of Queensland, Australia
- Lead a team of six international collaborators from four language backgrounds to synthesise global conservation evidence for East Asian–Australasian Flyway migratory shorebirds
- Developed an LLM-assisted workflow to extract and validate data from 520 studies, cutting screening and validation time by at least 20% for evidence synthesis
- Built and coordinate a network of 70+ practitioners across 18 countries in the East Asian–Australasian Flyway, consulting them to develop a practical handbook for managing shorebird conservation
- Analysed migratory shorebird population trends in the East Asian–Australasian Flyway and Moreton Bay Ramsar Site
- Supervised an Honours project (Synthesizing conservation evidence for the Australian terns in the EAAF) and a Masters project (social media monitoring of reptile harvesting in Southeast Asia)
- Developed and coordinated a field and lecture program in coastal shorebird and seabird surveys for BIOL3024 students

Research Assistant — **Oct 2016 – Sep 2020**
National University of Singapore, Singapore
- Managed the Avian Evolution Lab's logistics, research permits, finances, procurement, sample collection and administrative procedures, keeping a lab of up to 15 members running smoothly
- Led a team of five students and three junior research assistants to deliver and manage three concurrently funded projects (combined value ~SGD 540,000):
    - Landscape connectivity of urban and forest birds in Singapore (National Parks Board, SGD 360,000, 3 years)
    - Genomic assessment of migratory shorebirds wintering in Singapore (National Parks Board, SGD 33,700, 3 years)
    - Ecological and genomic conservation assessment of songbirds threatened by trade (Wildlife Reserves Singapore, SGD 150,000, 3 years)
- Banding and sampling experience of ~350 birds from 14 avian orders including shorebirds and seabirds
- Main liaison with >10 international collaborators and 2 government agencies for samples, permits and grants for research in Singapore
- Organised and coordinated international field expeditions in Southeast Asia to survey and collect avian samples
- Co-supervised and co-designed undergraduate and graduate student research projects in genomics and avian biology
- Library preparation for Next-Generation Sequencing for modern and ancient samples: Double Digest Restriction Associated DNA Sequencing (ddRADSeq), whole genome libraries, and targeted enrichment

PUBLICATIONS

Google Scholar: Profile | ORCID: Profile | Scopus author ID: 57190133085

Citation counts from Google Scholar (as of 30 Oct 2026). Impact factors are based on Clarivate Journal Impact Factors (2025).

Summary: 25 published peer-reviewed papers (8 first-author) | 287 citations | h-index 11

Papers in submission or preparation

- **Ng EYX**, Rogers A, Fuller RA, Amano T. *In prep*. Shifting drivers of migratory shorebird declines in the East Asian-Australasian Flyway.
- **Ng EYX**, Tang Q, Phillips RA, Vianna JA, Emmerson LM, Wienecke B, Pistorius P, McInnes JC, Kruger L, Miranda FL, Rheindt FE, Burridge CP. *In submission*. Introgression dynamics across different island theatres in a Southern Ocean seabird.

Published and accepted papers

1. Tan YY, Moreland K†, **Ng EYX**, Li DZW, Tomkovich PS, Rocha AD, Alves JA, Pakanen V-M, Tan HZ, Soh B, Leung KKS, Melville DS, Round PD, Rheindt FE. *In press*. Cross-Palaearctic population connectivity in a migratory shorebird, the Common Redshank, defies high site fidelity. *Molecular Ecology.* [Citations: NA, IF: 3.7]
2. **Ng EYX**, Emmerson LM, Wienecke B, Miranda FL, Southwell C, Vianna JA, Burridge CP. 2026. Responses of Antarctic seabird populations to past climate change. *Ecography e08322.* [Citations: 0, IF: 5.3]
3. Amano T, Berdejo-Espinola V, Cseko-Nolasco E, Indraswari K, Dominguez-Martinez RM, Liu A, **Ng EYX**, Adams V, Johnson M, Munger K, Spillman N, Possingham H, Jackson MV. 2026. How to run a language-inclusive international conference. *Nature Reviews Biodiversity* 2: 481–483. [Citations: 0, IF: NA]
4. **Ng EYX**, Wotherspoon S, Emmerson LM, Burridge CP. 2025. Ecological and Evolutionary Factors Shape the Extra-Tropical Latitudinal Species Diversity Peak in Procellariiform Seabirds. *Journal of Biogeography* 52: e70088. [Citations: 2, IF: 3.5]
5. Horner K†, Jense C, **Ng EYX**, Freeman R, Deagle B, Burridge CP. 2025. Evaluating genetic diversity, population structure, and introgression in insurance populations of one of Australia's most threatened species: the freshwater fish *Galaxias pedderensis*. *Conservation Genetics* 27: 9. [Citations: 1, IF: 2.4]
6. Jorquera J, Morales L, **Ng EYX**, Noll D, Pertierra LR, Pliscoff P, Balza U, Boulinier T, Gamble A, Kasinsky T, McInnes JC, Marín JC, Olmastroni S, Pistorius P, Phillips RA, González-Solís J, Emmerson LM, Poulin E, Bowie RCK, Burridge CP, Vianna JA. 2025. Genomic introgression and adaptation of southern seabird species facilitate recent polar colonization. *Molecular Biology and Evolution* 42: msaf053. [Citations: 12, IF: 6.4]
7. Tan YY, Soh B, **Ng EYX**, Li DZW, Rheindt FE. 2025. Genome-wide DNA reveals decades-long genetic stability and intra-familial migratory site fidelity in an Asian population of Common Redshanks. *Journal of Ornithology* 166: 339–347. [Citations: 0, IF: 1.7]
8. Rheindt FE, Teo GGK†, Eaton JA, **Ng EYX**. 2025. A new and cryptic species of hawk-cuckoo (genus *Hierococcyx*) from Borneo. Journal of Asian Ornithology 41: 34–43. [Citations: 2, IF: NA]
9. Hui TCY†, Tang Q, **Ng EYX**, JL Chong, Slade EM, Rheindt FE. 2024. Small-mammal genomics highlights viaducts as potential dispersal conduits for fragmented populations. *Animals* 14: 426. [Citations: 3, IF: 3.2]
10. Wu MY, Chong HW, Tan YY, Oh RRY, Lee JGH, Gwee CY, **Ng EYX**, Rheindt FE. 2024. Genomic data reveal shift in geographic source of an illegally traded songbird. *Conservation Genetics* 25: 179–187. [Citations: 0, IF: 2.4]
11. **Ng EYX**, Li S†, Zhang D, Garg KM, Song G, Martinez J, Hung LM, Tu VT, Fuchs J, Dong L, Olsson U, Huang Y, Alström P, Rheindt FE, Lei F. 2023. Genome-wide SNPs confirm plumage polymorphism and hybridisation within a *Cyornis* flycatcher species complex. *Zoologica Scripta* 52: 1–16. [Citations: 6, IF: 2.4]

12. **Ng EYX**. 2022. Communication: Inaccurate information in a Biodiversity Record on the identification and movement of a laced woodpecker between Pulau Ubin and Pasir Ris. *Nature in Singapore* 15: e2022096. [Citations: 0, IF: NA]
13. Wu MY, Lau CJ, **Ng EYX**, Baveja P, Gwee CY, Sadanandan K, Ferasyi TR, Haminuddin, Ramadhan R, Menner JK, Rheindt FE. 2022. Genomes from historic DNA unveil massive hidden extinction and terminal endangerment in a tropical Asian songbird radiation. *Molecular Biology and Evolution* 39: msac189. [Citations: 15, IF: 6.4]
14. YC Sin, R Narayanswamy, D Ng, S Chia, **EYX Ng**, M Kennewell. 2022. Beyond the pandemic: gems from Singapore in 2020–2021. *BirdingAsia* 37: 101–108. [Citations: 1, IF: NA]
15. Chiok WX†, **Ng EYX**, Tang Q, Lee JGH, Rheindt FE. 2021. A distance sampling survey of the Critically Endangered Straw-headed Bulbul *Pycnonotus zeylanicus* in Singapore. *Bird Conservation International* 31: 468–480. [Citations: 11, IF: 1.9]
16. Rheindt FE, **Ng EYX**. 2021. Avian taxonomy in turmoil: The 7-point rule is poorly reproducible and may overlook substantial cryptic diversity. *Ornithology* 138: 1–11. [Citations: 9, IF: 1.9]
17. Ng YJD†, Svejcarova T, Sadanandan KR, Ferasyi TR, Lee JGH, Prawiradilaga DM, Ouhel T, **Ng EYX**, Rheindt FE. 2021. Genomic and morphological data help uncover extinction-in-progress of an unsustainably traded hill myna radiation. *Ibis* 163: 38–51. [Citations: 14, IF: 2.9]
18. Hung LM, **Ng EYX**, Wu SY, Tung DQ, Tien BD, Son LV, Sun HY, Rheindt FE. 2020. Bidoup Nui Ba National Park and the Dalat Plateau, Vietnam: an extraordinary South-East Asian hotspot of endemism. *BirdingAsia* 34: 84–109. [Citations: 2, IF: NA]
19. Sadanandan KR, Low GW, Sridharan S, Gwee CY, Ng **EYX**, Yuda P, Prawiradilaga DM, Lee JGH, Tritto A, Rheindt FE. 2020. The conservation value of admixed phenotypes in a critically endangered species complex. *Scientific Reports* 10: 15549. [Citations: 26, IF: 4.9]
20. Yue AY†, **Ng EYX**, Eaton JA, Rheindt FE. 2020. Species limits in the Elegant Pitta (*Pitta elegans*) complex from Wallacea based on bioacoustic and morphometric analysis. *Avian Research* 11: 42. [Citations: 9, IF: 2.2]
21. **Ng EYX**, Yue AY, Eaton JA, Gwee CY, van Balen B, Rheindt FE. 2020. Integrative taxonomy reveals cryptic robin lineage in the Greater Sunda Islands. *Treubia* 47(1): 39–52. [Citations: 3, IF: NA]
22. Cros E, **Ng EYX**, Oh RRY, Tang Q, Benedick S, Edwards DP, Tomassi S, Irestedt M, Ericson PGP, Rheindt FE. 2020. Fine-scale barriers to connectivity across a fragmented Southeast Asian landscape in six songbird species. *Evolutionary Applications* 13: 1026–1036. [Citations: 27, IF: 3.2]
23. Tan HZ†, **Ng EYX**, Tang Q, Allport GA, Jansen JJFJ, Tomkovich PS, Rheindt FE. 2019. Population genomics of two congeneric Palaearctic shorebirds reveal differential impacts of Quaternary climate oscillations across habitat types. *Scientific Reports* 9: 18172. [Citations: 21, IF: 4.9]
24. **Ng EYX**, Hung LM, Wu S, Rheindt FE. 2019. First nest description and altitudinal range extension of the south Indochinese endemic Black-headed Parrotbill *Psittiparus margaritae*. *BirdingAsia* 31: 91–93. [Citations: 0, IF: NA]
25. Gwee CY, Eaton JA, **Ng EYX**, Rheindt FE. 2019. Species delimitation within the *Glaucidium brodiei* owlet complex using bioacoustics tools. *Avian Research* 10: 36. [Citations: 19, IF: 2.2]
26. Koh JJ-M†, Rheindt FE**,** **Ng EYX**, Webb EL. 2019. Evidence of genetic connectivity between fragmented pig population in a tropical urban city-state. *Raffles Bulletin of Zoology* 67: 14–31. [Citations: 6, IF: 1.0]
27. Ng NSR**,** Prawiradilaga DM, **Ng EYX**, Trainor C, Verbelen P, Rheindt FE. 2018. A strikingly new species of leaf warbler from the Lesser Sundas as uncovered through morphology and genomics. *Scientific Reports* 8: 15646. [Citations: 20, IF: 4.9]
28. **Ng EYX**, Garg KM, Low GW, Chattopadhyay B, Oh RRY, Lee JGH, Rheindt FE. 2017. Conservation genomics identifies impact of trade in a threatened songbird. *Biological Conservation* 214: 101–108. [Citations: 37, IF: 4.9]
29. **Ng EYX**, Eaton JA, Verbelen P, Hutchinson RO, Rheindt FE. 2016. Using bioacoustic data to test species limits in an Indo-Pacific island radiation of *Macropygia* cuckoo doves. *Biological Journal of the Linnean Society* 118(4): 786–812. [Citations: 41, IF: 1.6]

† Student co-author co-supervised by Ng EYX

GRANTS AND AWARDS

Awarded grant total: SGD 64,400

Kerry-Jayne Wilson Student Travel Award **Nov 2023**

- Awarded AUD 750 (SGD 676) to present at the Australasian Ornithological Conference 2023

Cumberland Bird Observers Club Memorial Fund Grant **Oct 2022**

- Awarded AUD 2,000 (SGD 1,802) to conduct genomic analyses to elucidate the species limits in the Northern and Southern Giant Petrels and the genomic effect of hybridization

Holsworth Wildlife Research Endowment Grant **Apr 2021 – Mar 2024**

- Awarded AUD 20,810 (SGD 18,753) to investigate the "Past, present and future impacts of climate change on volant Antarctic seabirds"

Tasmania Graduate Research Scholarship **Oct 2020 – Nov 2024**

- Awarded full scholarship and stipend (SGD 226,993) to undertake doctoral research at the University of Tasmania

Wildlife Reserves Singapore Conservation Fund **Aug 2015 – Apr 2016**

- Awarded SGD 8,069 for Honours Project to investigate the "Population-genomic Assessment of White-rumped Shamas (*Copsychus malabaricus*) across Southeast Asia"

Jun 2019 – Jun 2020

- Secured funding (SGD 35,100) for conservation genomic work on the Critically Endangered Santa Cruz Ground Doves

SCIENTIFIC CONFERENCES AND PRESENTATIONS

Australasian Ornithological Conference 2025 **18th – 20th Nov 2025**

- Conference talk on "Documenting conservation action for shorebird conservation in the East Asian-Australasian Flyway"

East Asian-Australasian Flyway Partnership, 12th Meeting of Partners **8th – 14th Nov 2025**

- Convened a stakeholder workshop to share regional conservation efforts and strengthen engagement between practitioners, researchers, and stakeholders

World Coastal Forum 2025 **24th – 25th Sep 2025**

- Invited speaker on coastal ecosystem conservation and shorebird biodiversity, presenting on the challenges and strategic priorities for global coastal conservation

32nd International Congress for Conservation Biology **15th – 19th Jun 2025**

- Conference talk on "Documenting conservation action for shorebird conservation in the East Asian-Australasian Flyway"
- Member of the Language Accessibility Subcommittee, contributing to the development of initiatives that enhanced inclusivity and accessibility for multilingual conference participants including:
    - Development of the guidelines to give linguistically friendly presentations in English
    - Social media content for conference participants
    - Translation of English text to Simplified Chinese

Australasian Ornithological Conference 2023 **27th – 30th Nov 2023**

- Awarded the Kerry-Jayne Wilson Student Travel Award to present at the conference
- Conference talk on "Decline of Antarctic seabirds in a warming climate"
- Poster presentation on "Elucidating the genomic differences between the Northern and Southern Giant Petrels"

International Congress of Genetics 2023 **16th – 21st Jul 2023**

- Awarded Sidney James Prize for Best Student Poster
- Poster presentation on "Paleohistorical climate influences on Antarctic seabirds"

International Ornithological Congress 2022 **15th – 19th Aug 2022**

- Conference talk on "Historical climatic influences on Antarctic seabirds"

Scientific Committee on Antarctic Research 2022 **1st – 10th Aug 2022**

- Poster presentation on "Historical climatic influences on Antarctic seabirds"

SCIENTIFIC MEMBERSHIP AND ACTIVITIES

- **EAAFP shorebird working group** **2026 – Present**
  - Co-organised the workshop "Shorebird Science for Conservation" workshop and invited its speakers at the Asian Ornithological Congress 2026
- **Journal of Asian Ornithology** **2026 – Present**
  Subject editor
  - Subject expert in avian genetics and ecology (landbirds and shorebirds)
- **Centre for Biodiversity and Conservation Science** **2025 – 2026**
  Management Committee Early Career Researcher Representative
  - Co-coordinated the CBCS Small Grant Scheme with the Research Director, managing applications, assessment and selection for 13 applicants and awarding 9 grants (AUD 20,000).
  - Championed CBCS research through impact statements that showcased its outcomes to funders, partners, and university leadership
- **AviList – The Global Avian Checklist** **2025 – Present**
  Member of the Tropical Asian Regional Advisory Group
  - Provide expert advice on avian taxonomy using current scientific literature, genomic evidence, morphology, behaviour, and biogeography.
  - Contribute to the development and review of avian taxonomic proposals within the Regional Advisory Group
- **IUCN Asian Songbird Trade Specialist Group** **2016 – 2020**
  Member of the genetics section
  - Provide genomic evidence-based advice regarding the conservation of traded songbirds
- **Straw-headed Bulbul Working Group**
  Member of the Captive Breeding and Genetics branch **2024 – Present**
  Chair of the Captive Breeding and Genetics branch **2021 – 2024**
  - Coordinate the action plan for the branch
  - Conducted the genomic assessment of the Straw-headed Bulbul across its range
- **Publications refereed**
  - Bulletin of the British Ornithologists' Club, Ecology and Evolution (2), Ibis, Journal of Asian Ornithology, Raffles Bulletin of Zoology

TEACHING EXPERIENCE

The University of Queensland, Australia

- BIOL3024 – Marine Wildlife Conservation **2025**
  - Developed and coordinated an experiential field program introducing students to citizen science methodologies through marine bird surveys and bird race activities, with a focus on identifying shorebird and seabird species in coastal environments.
  - Designed and delivered two lectures on the ecology, conservation biology, and major anthropogenic threats affecting shorebirds and seabirds, highlighting current management strategies and global conservation initiatives.

University of Tasmania, Australia

- KZA161 – Biology of Animals **2023 – 2024**
  - Guided and supported first-year undergraduate students as they identified the distinctive features of different animal groups
- KPZ164 – Cell Biology, Genetics & Evolution **2022 – 2023**
  - Facilitated and assisted first year undergraduate students conducting molecular and genetic experiments
- KPZ310 – Genetics and Evolution III **2021**
  - Guided and supervised a student-driven project examining the evolutionary shifts in breeding locations among seabirds
- KPZ314 – Fauna of Tasmania **2022 – 2024**
  - Conducted hands-on sessions instructing students in the identification of Tasmanian birds by sight and sound

National University of Singapore, Singapore

- LSM1103 – Biodiversity **2015**
  - Led student groups on field trips to identify flora and fauna
  - Conducted practical section on identifying key features of flora and fauna groups
  - Mentored students on scientific essay writing
- LSM3266 – Avian Biology and Evolution **2015 – 2019**
  - Led student groups on field trips to identify birds by sight and sound
  - Conducted and demonstrated field-based surveys (observation and mist-netting)
  - Facilitated and provided logistical support for the smooth execution of practical sessions

SKILLS

Analytical

- Analysis of large genetic and ecological datasets with R, Bash/Unix, and Python
- Spatial analyses in ArcGIS and QGIS
- Designing scientific graphics (e.g., figures and posters) in Adobe Photoshop and Illustrator

Laboratory

- Library preparation for Next-Generation Sequencing for modern and ancient samples: Double Digest Restriction Associated DNA Sequencing (ddRADSeq), whole genome libraries, and targeted enrichment
- Sanger sequencing with mitochondrial genes

Field

- Extensive experience in bird banding, bird count surveys, blood sampling, and mist-netting of birds in Singapore, Australia, Indonesia, Malaysia, Philippines, Vietnam, and Costa Rica
- Experienced handling and sampling birds of various Orders including Galliformes (Landfowl), Columbiformes (Pigeons and Doves), Cuculiformes (Cuckoos), Apodiformes (Hummingbirds), Gruiformes (Rails) Charadriiformes (Plovers and Sandpipers), Sphenisciformes (Penguins), Procellariiformes (Shearwaters), Trogoniformes (Trogons), Coraciiformes (Kingfishers), Piciformes (Puffbirds, Barbets, Woodpeckers), Falconiformes (Falcons), Accipitriformes (Sparrowhawks), and Passeriformes (Songbirds)
- Experience with trapping small (rodents) to large mammals (Tasmanian devil), lizards (skinks) through volunteer stints

Licenses

- Australian Bird and Bat Banding Scheme: R Class licence. Currently banding with Queensland Bird Research and Banding Group
- PADI Advanced Diving Licence: 80 dives
- Manual driving licence
